

Healthcare⁺ IDEA BOOK 2020

Presenting your 2020 Healthcare Idea Book

The biggest transformations often begin with a simple idea. That's what our idea book is all about. It simply offers ideas from our most recognized group manufacturing partners in healthcare furniture. As your dedicated partner, we are equipped to guide you through the process of selecting the proper solutions which meets your specific needs. We begin with the complete understanding of your facilities and asking pertinent questions and observing you in action. Working side by side we are dedicated to.

Taking time to listen and understand your needs

Present the best solutions

Take care of the details

Be a spokesperson if your expectations are not met

Do our part to protect the environment

Deliver results that make you happy about our partnership

FOSTER[®] PATIENT RECLINER

PATIENTS

FOSTER® PATIENT RECLINER

Comfort. Control. Connection.

allseating

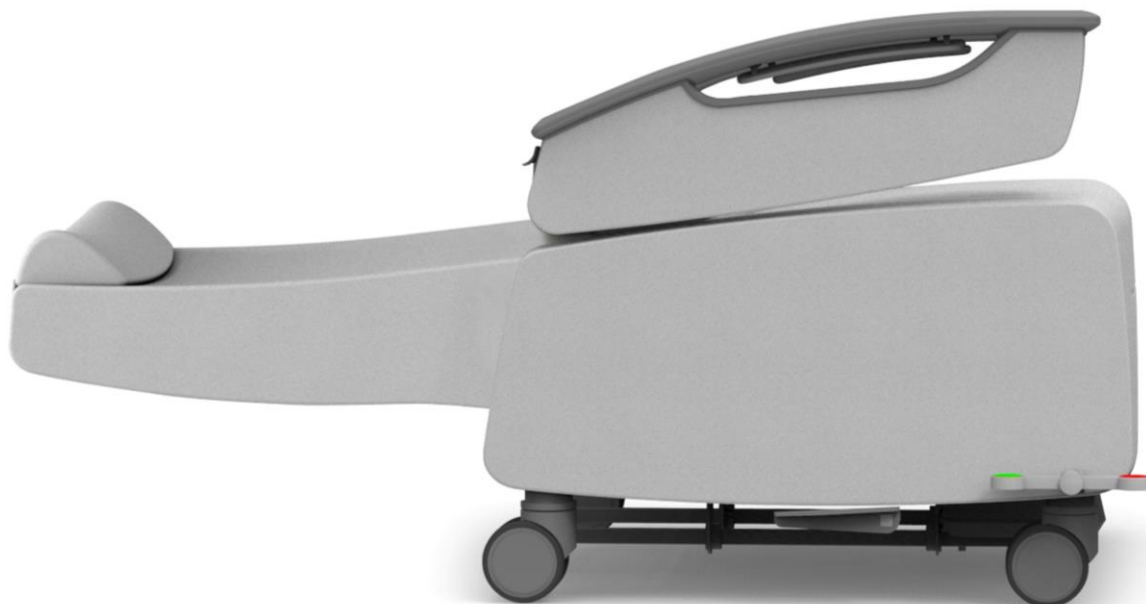

**Designed with
patient, caregiver and family
well-being in mind.**

Features that speak to the emphasis placed on the patient experience, such as, sloped arms, rounded arm caps for ingress and egress optimization, passive built-in lumbar support, infinite recline, dual density seat suspension with molded foam and sinuous springs, and an ergonomic footrest.

Similarly, features such as the ability to mount chair controls on the left or right side, dual side central brake and steer levers and pivoting arms that allow side access to the patient, speak to the emphasis placed on the caregiver experience.

The Foster Patient Recliner is also able to lay flat, given the footrest and back work independently, to provide a comfortable sleeping alternative.

PATIENTS

EV Recliner

The EV recliner by La-Z-Boy® Contract Furniture comes standard with breakaway footrest, three swivel locking casters and one rigid locking caster located in front, removable back, and push bar. Other options available including IV pole and side trays, heat & massage, as well as personal reading lights and monitor / tablet holders.

(Inside Look)

LIQUICELL IMPROVES BLOOD FLOW BY 150%

LiquiCell® is a medical technology that protects skin tissues from being stretched and torn, thereby optimizing blood flow. This ultra-thin cell contains a liquid that is in constant motion allowing the body to glide or float with an object. What this means is greater long-term comfort due to less body aches, pain and fatigue.

LIQUICELL IS STANDARD ON ALL LA-Z-BOY HEALTHCARE RECLINER SEATS

FOSTER® RECLINER

Sit back and relax.

Designed to be intuitive, Foster Recliner alleviates stress by allowing patients and family to easily sit, elevate their feet or recline.

The modern design integrates function and style to create a patient-centered seating solution. The slope of the arm is designed to minimize shoulder stress, while the arm caps provide support for egress and ingress. Optional removable covers can be quickly and easily refreshed in order to maintain a clean and infection-free environment.

And the chair's locking casters are located at the front so they're easy to reach. The Foster Recliner is part of the Foster collection, a broad collection of healthcare seating solutions that support the entire continuum of care.

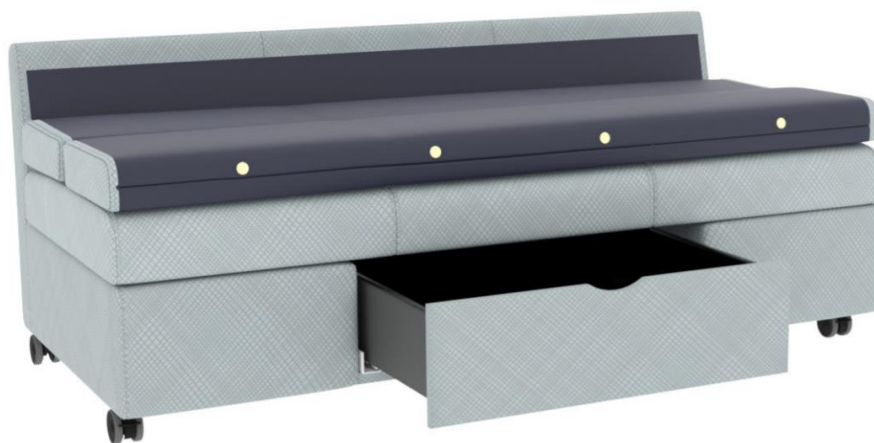

PATIENTS

Patient Recliner & Sleep Chairs

A wide variety of patient recliners are available depending on the application. From the patient room to the ICU, and everything in between. La-Z-Boy® Contract Furniture's medical recliners are available with 13 platform features, and a multitude of additional options that make it easier to treat, transport, and tend to the patient. The sleepers is easy to open and close. Standard with urethane arm caps; optional wood arm caps available. The Sleep Sofa is standard with wood legs; optional casters available.

Healthcare sleeper collections offer the comforts of home to family members staying in patient rooms.

Sleep sofas include fold down or pullout cushions that separate the sleeping surface from the sitting surface.

PATIENTS

FEELING OF HOME. EASE OF USE.

The La-Z-Boy sleeper collections offer the comforts of home to family members staying in patient rooms. Sleep chairs feature easy-to-use bed pull-outs, while sleeper sofas include fold down cushions that separate the sleeping surface from the sitting surface.

EXCHANGE INFINITE POSSIBILITIES

7 components = 2,725 configurations

Seven basic components, equating to 16 standard configurations, offers over 2725 possibilities. Exchange supports overall wellness by promoting movement and collaboration. Its flexible design gives individuals the freedom to work how and where they want. Exchange offers everything from single, double, triple, and quad, to L-shape, U-shape and custom open plan collaborative enclosures. The soft seating system can support a span of 9' with only four legs, making it uninterrupted visually and providing a clean and light aesthetic.

Five arm and four table options, 16 finish colors, 13 laminate options, a comprehensive privacy screen program, and power options allow Exchange to flow cohesively across an entire facility - from the patient room to the executive office to Cafeteria. Exchange's building-blocks, along with removable and easily changeable covers, is what makes Exchange easy to configure and to reconfigure to support the needs of your healthcare facility.
